Career Objective

To begin my career in Information Technology by applying my knowledge of Java programming, IoT systems, and AI applications to contribute to innovative projects, while continuously learning and developing new skills for professional growth.

Education

B.Tech in IT

Vidya Jyothi Institute of Technology, Hyderabad

2025 - 2028 | CGPA: 8.7

Diploma in CSE

TRR College of Technology

2022 - 2025 | CGPA: 9.7

SSC

Brilliant Grammar High School

2021 - 2022 | GPA: 9.8

Technical Skills

- **Programming:** Java (OOP, algorithms), HTML, CSS, basic JavaScript
- **IoT & Embedded Systems:** Arduino, sensor integration, automation systems
- **AI/ML:** Predictive modeling, recommendation systems (Python, ML libraries)
- **Tools:** GitHub, Infosys Springboard

Projects

IoT-Based Smart Garbage Detection

- Developed a sensor-based system to detect garbage levels in bins and notify collection teams.
- *Tech Used:* Arduino, IoT sensors, Embedded C

IoT Smart Campus – Classroom Automation & Intelligent Parking

- Automated classroom lighting and fan control based on occupancy.
- Designed an intelligent parking system with real-time availability detection.
- *Tech Used:* IoT devices, Arduino, Embedded systems

AI-Driven Crop Yield Prediction & Recommendations

- Built a machine learning model to predict crop yield based on soil and weather data.
- Provided recommendations to farmers for better productivity.
- *Tech Used:* Python, AI/ML libraries

Certifications

- Programming in Java - Infosys Springboard
- Introduction to IoT - NPTEL
- Qlik Sense Business Analyst
- System Administration – Red Hat
- Linux Fundamentals – Red Hat

Achievements

- Presented technical documentation in college seminars
- Active participant in hackathons and coding challenges

Soft Skills

- Problem Solving & Analytical Thinking
- Communication Skills
- Adaptability & Continuous Learning
- Teamwork & Collaboration
- Creativity
